*Web links provide more detailed information.

David, Theresa and Mat invite you to come help them celebrate their success.

The statement of Purpose for NHP is, "In a community of professional, supportive people, The New Harmony Project seeks out and serves those writers—and helps develop those scripts—that explore the human journey by offering hope and showing respect for the positive values of life.

In doing this...

We will assay the integrity of the work, asking, 'What does it do?' 'Does it do it well?' Briefly, it should name, celebrate honor and praise order in the midst of chaos; life in the midst of death; atonement in the midst of separating hatred; liberty in the midst of oppression; sacrifice in the midst of vanity; and spirit in the midst of corruption."

Note to our writers: If you have a production scheduled, send us your news and we will share with your supporters.
